variety of diseases, among which are Apopleay, Goot, Rheumetten, and all febrile diseases. In its nervous form it is sympothetic of disease of the stomach, constituting sick heatdacks, of hepatic disease constituting bilious heatdacks, of worms, constipation, and other disorders of the bowels, as well as resad and uterine affections. Diseases of the heatt are very frequently attended with Headches; Amenia and picthora are also affections which frequently occasion headcake. Idiopathic Headche is also very common, being usually distinguished by the name of nervous headcacks, sometimes coming on suddenly in a state of apparently sound heatlit, and prostrating at once the mental and physical energies, and in other instances it comes on alowly, heralded by depression of spirits or accrebity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class my slace be manned Neuralgia.

For the treatment of either class of Headache, the Cephalio Fills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the discusses of which Headache is the unerring index.

CONSTIPATION OR COSTIVENESS.

No one of the "many lile flesh is heir to" is so prevalent, so little understood, and so much neglected, as Costiveness. Often originating in carelessness, or aedectary habits, it is regarded as a slight disorder of tool little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerom diseases, and unless early evadiented it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colie, Rheumatism, Foul Breath, Files, and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentery, Distrhea, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Meiancholy, and Inamity first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all those considerations it follows that the discorder should receive immediate statution whenever it occurs, and no person should neglect to get a box of Cephalic Fills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

always obtain ageedy relief from these distressing attacks by using one of the Cephalle Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jar-ring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalia Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose bunches will be experienced by sufforing humanity long after their discoverers are forgotten.

Dre you ever have the Sick Hesdache? Do you remander the throbbing temples, the fevered brow, the locating and disjust at the sight of food? How totally unit you were for pleasure, conversation, or study? One of the Cepballe Fills would have relieved you from all the suffering which you then experienced. For this and other purposes, you should always have a box of them on hand to use as occasion requires.
